BOWLING.

THOMPSON VANQUISHED KERN.

Chicago Man Scored Over Local Bowler in Special Match at Palace.
In a special tenpin match at the Palace today last evening W. V. Thompson of Chicago won five games from Martin Kern, the national champion, and a resident of this city.

Both men bowled great games, but Thompson was easily the superior in the evening match. He totaled 237, 247, 249 and 222, with a grand total of 1,155, making an average of 238.5.

Kern made an error or two in his first game and scored but 147. His successive marks were 197, 210, 217 and 203. His grand total was 923 and his average 184.5.

Total pins counted in the match.

All-Western Football Team.

While players who would compose an all-Western football team were published in these columns lately, another classification of leading candidates seems indicated at present.

In the West this season many grifters warred with the local players, although some of them were of the highest caliber.

There is one player who stands out above all others in the West this year. He is a native of Illinois, and he played in the championship game here in St. Louis against Washington in the early part of the season.

The West perhaps has never had a better and more reliable player than the one who is now in St. Louis.

At center Harold of Illinois was the pivot point in the game. He is a native of Illinois, and he played in the championship game here in St. Louis against Washington in the early part of the season.

Harvard men are greatly pleased to learn that Daniel Hurley, the plucky little captain of their football eleven, will return to the college at the end of the year.

Hurley will be eligible for the team and for election as captain next year.

FARMERS FIGHTING FOREST FIRES

Alton Hunters Report a Big Blaze in Jersey County.

Alton hunters returning from Jersey County report that forest fires are raging near Otterville, Shilo and Newburn, and that the farmers are organizing and fighting the flames.

It is said that these forest fires originate from camp fires which the hunters do not extinguish when they cook their meals in the woods. The dry leaves ignite from the camp fire and soon the entire woods are ablaze.

Considerable damage, it is said, has been done by the fires, while the farmers in their band organizations have been effective in stamping out a great deal of the flames.

No other remedy in the world will give such quick relief to the sufferer. "5-DROPS" cures Rheumatism by eliminating from the blood the poisons and other impurities which prevent perfect circulation. This is the only way in which a permanent cure may be obtained. With the blood pure, perfect circulation is assured, and disease is an impossibility. "5-DROPS" is an internal and external remedy, which acts quickly, safely and surely, and is an absolute cure for Rheumatism, Lumbago and Sciatica. "5-DROPS" taken internally will dissolve the poisonous acid, remove it from the system and cleanse the blood of all impurities. An application of "5-DROPS" to the afflicted parts will stop the pains almost instantly, while the cause of the disease is being surely removed by its internal use.

Kidney Trouble, that most dangerous and painful disease, can be cured by this remedy. It acts on the blood, purifying it and at the same time cleansing the kidneys of all impurities. It removes the poison from the system and restores the kidneys and liver to their normal condition. If you are suffering from Kidney Trouble or Liver Complaint you should not fail to secure a bottle of "5-DROPS" at once.

READ THIS LETTER FROM VICE-PRESIDENT CARTER
Mr. Carter tried all the Remedies of any Note in America, England and France, but all failed. Was treated by physicians, and in a hospital for eight months, but was not cured. Made several trips to Hot Springs and other health resorts without obtaining relief from his suffering.

Used "5-DROPS," and one-half bottle stopped all aches and pains.
M. J. Carter, Vice-President National Malleable Iron & Perfection Copper Co., Philadelphia, Pa., writes: "Have suffered twenty years and this has been one of the toughest and hardest years I have ever known. I have taken nearly every remedy offered for sale in this country and all of any note in France and England; have tried several doctors at different times; made five or six trips to the Hot Springs of Arkansas and other health resorts here and elsewhere; lay eight months in a hospital at one time. I took the sample bottle of '5-DROPS' you sent me with much reluctance. I felt a feeling of relief which I never before experienced. Immediately I finished taking the trial I purchased a regular size bottle and took as near directions as time and opportunity would permit. Today I shall purchase my fourth bottle. Since taking one-half of the first bottle I have not had an ache or pain in any part of my body. I can feel new life gradually crawling back into my half-paralyzed body day by day. I am sixty years of age and am now attending to my daily duties, riding thirty miles and working every day, besides a large amount of walking. Your '5-DROPS' has completely renovated my whole system. I am wondering now, as I write, what it can be composed of, for it brings about a feeling of confidence, great joy and contentment of mind. It quiets every nerve in the body; it makes one feel like a new man. I feel that I have been cured. I am thoroughly satisfied that all you claim for it is absolutely true. This is the first time in my life that I felt it my duty to say even one word in favor of any remedy I have ever taken."

MALADIES OF INDISCRETION

Most men suppose that the consequences of these afflictions are confined to the SINGLE or IMMORAL; but such is not the case. They often invade the MARRIED CIRCLE to an ALARMING extent; although, perhaps, the original disease might have been contracted in the forgotten past, but through neglect or bad treatment it has been lurking in the system for months and years, and will, sooner or later, break out into sores, bad legs, a dryness and coarseness of the throat, pimples, and itching on the breast and head. There will be frequently a dry headache, with dimness of sight, great lowness of spirits, with aches and pains in the limbs, particularly in the legs and thighs. In many cases there will be a slight scalding of the water at times, with a twitching and twinging in the urinary passage, and very often some PAIN in the discharge of water. It seldom happens that two people are affected alike; but in each and every one suffering from disorders which have their origin in "maladies of indiscretion" some of the above-mentioned symptoms will be found.

We are Specialists for Diseases and Weaknesses of MEN and MEN ONLY. OUR TREATMENT thoroughly searches out these troublesome diseases, purifies and renews the blood, strengthens and invigorates the nervous system and restores the patient to sound and perfect health. And, furthermore, we have such firm confidence in our NEW METHODS and TREATMENT that we are willing to cure our patients under an ABSOLUTE GUARANTEE of

FOR PREVENTION OF DISEASES

Doctor Simon Prepares Articles for Municipality League.

Doctor John H. Simon, Health Commissioner, has prepared a long, illustrated treatise on the "Suppression of Epidemic Diseases," which will appear in the next bulletin of the League of American Municipalities, an organization composed of Mayors, Comptrollers and health officers of all of the large cities of the United States. Mayor Wells is honorary vice president of the league in Missouri, almost every State being represented.

Doctor Simon was selected to prepare the article because of his success in stamping out epidemics here. St. Louis for the last twelve months having been one of the healthiest cities in the world. He has secured statistics which will prove of special importance to seaboard cities, where foreign cargoes are unloaded, for the treatment of the methods of preventing diseases which may be communicated by rats.

Doctor Simon says that practically all of the plagues and epidemics in the seaboard cities are caused by rats carrying germs. He said that this is proven by the fact that before the outbreak of a plague, rats are found dead on the streets in large numbers. A bacteriological examination will disclose the disease germs. He laid out a plan, adopted from the German exhibits the World's Fair, of pumping gases into the holds of all-incoming ships and exterminating rats and germs.

He also treats at length on vaccination and has statistics to show that smallpox has been decreased in Germany about 90 per cent by the use of vaccine.
